Product description

The minimalist and modern style of INVERTO faucets is ideal for bathrooms with such a character. The single-handle bidet faucet from INVERTO collection is fitted with the ecological Cersanit Water Save Aerator and a 28 mm ceramic cartridge which enables smooth control of the water stream throughout its life cycle. The applied ecological Cersanit Water Save Aerator aerates the water stream thus increasing its volume and limiting the water flow to 6 l/min. The faucet is also equipped with 45 cm long flexible Eco EPDM connection hoses. The hoses are WRAS certified, which confirms their high quality. A special coating lines the inside of the hoses so the water does not change its taste or smell. The product comes with a 12-year warranty on the body and a 5-year warranty on the cartridge. The set includes an additional handle with a modernistic form in gold color.
