Larga washbasins are made from high-quality, lightweight and extremely sturdy ROCKLITE ceramic mass which easily withstands impact and loads. The wall rim thickness of countertop washbasin is just 5-6mm that makes these washbasins very light and modern in appearance. Silver Protect gives an antibacterial effect (silver ions in glaze) and optimal protection for hygiene purposes thanks to effective inhibition of bacterial growth. New glaze colour – Euro White - makes ceramic looks much warmer and will emphasize much more better the way white furniture fits to ceramic from Cersanit offer.
