

TECH LINE BASE

[COLLECTION TECH LINE BASE](#)

PRODUCT CODE:

K97-491

Product description

TECH LINE BASE concealed WC frame for dry construction is a solution suitable for smaller bathrooms, without losses on the functionality of space. The solid, powder-coated frame is made of steel profiles. Its width is only 35 cm, which allows it to be used in even the tightest bathrooms. The frame is also equipped with regulation of the amount of drained water, silent filling valve and rotating feet in 4 directions every 90 degrees.
