Product description

Modular walk-in shower enclosures from the MILLE collection, with a comfortable height of 200 cm, combine modernist aesthetics and extraordinary practicality. The available sets will allow you to set up a comfortable shower area tailored to your bathroom space. Due to the two available colors of profiles: chrome and black matt, we can match the color of the set to our arrangement. Robust 8-mm tempered glass, aesthetically pleasing and adjustable wall profiles, and CleanPro hydrophobic coating are additional features worth noting. **IMPORTANT:** When configuring the freestanding enclosure elements by yourself, YOU NEED TO BUY A CORNER PROFILE (chrome S900-2812; black S900-2811). It does not apply to the buy of SETs which include a profile.
