

**SET C94: SHOWER ENCLOSURE RECTANGULAR CREA
SLIDING 120X80X200 CHROME TRANSPARENT GLASS**
[COLLECTION CREA, CREA SHOWER](#)

PRODUCT CODE:

S601-297

Product description

Shower enclosure CREA has been crafted from durable 8 mm thick tempered glass, ensuring structural stability and safety of using. The glass is equipped with a protective hydrophobic coating CleanPro, effectively preventing the buildup of limescale and impurities. This feature facilitates easier maintenance of the shower enclosure, keeping it clean and pristine. Chrome plated upper profile of the shower enclosure protects the rollers from contact with water and detergents. It aesthetically masks the rollers, thanks to which the upper portion of the enclosure gets a smooth, uniform surface both on the inside as well as on the outside. The silent door closing system ensures that the enclosure door closes smoothly and silently what guarantees the comfort everyday use. Double-sided handles made of high-quality metal combine durability and functionality. The shower enclosure is equipped with a functional wall side profile that adjusts to wall unevenness up to 15 mm. Chrome details with a subtly shiny finish emphasize the modernity and minimalist form of the shower enclosure. Silver magnetic gaskets create an aesthetic whole with the chrome details of the shower enclosure and increase the comfort of using. The high quality of the product is confirmed by a long-term warranty. A wide range of linear drains is available to be combined with the shower enclosure, which allows for freedom of configuration. Rectangular corner shower enclosure, 200 cm high, with a 120 cm wide door and an 80 cm wide wall, with sliding doors that can be installed right/left, with transparent glass.

Technical data

Availability of spare parts (years)	yes (min 3 year since finishing the production)
Cleanpro coating	yes
Depth	80 cm
Glass colour	transparent
Gross weight	89 kg
Height	200 cm
Intended for shower tray	yes
