

## ACTIS FLUSH BUTTON BLACK GLASS

### [COLLECTION ACTIS](#)

PRODUCT CODE:

S97-018

### Product description

ACTIS is a flush button with an interesting design where we have two asymmetrically arranged push buttons with a gently rounded shape placed on a rectangular flush plate. Such a combination makes the button fit perfectly with different types of shapes of other bathroom equipment. The model is made of black glass with plastic elements ie. push buttons and a frame surrounding the button plate in a glossy chrome finish. The push buttons gently protrude above the flush plate - 4 mm. The button can be used with economical, dual flushing systems. This flush button is compatible with WC concealed systems: AQUA series 0/2/4, SYSTEM series 0/2, HI-TEC, LINK. The button works with FRESH SYSTEM - a perfect solution for anyone wishing to use fresheners with CleanOn (no rim) wall hung bowls. A total and fresh solution for all-round toilet hygiene.

### Technical data
